

Virtual Workshop

Open dialogue on the application of AI and digital technologies in the education sector

Background information

Makerere University, Uganda in collaboration with the Karolinska Institutet, Sweden under the Centre of Excellence for Sustainable Health (CESH) through the "Building Capacity for Sustainable Development in the Fragile States" (SDGCap) project has organized a virtual workshop bringing together students, educators, researchers, and other stakeholders to share experiences and current knowledge on the use and application of Artificial Intelligence (AI) and digital technologies in the education sector.

Purpose

To raise awareness of the current scene of Artificial Intelligence and digital technologies in the education sector; to enable informed follow-up dialogues forging ways to sustainably harness artificial intelligence and digital technologies to promote inclusive and equitable quality education.
